## Customer account creation

Account creation is done as the first step on receiving Salusfin solution.

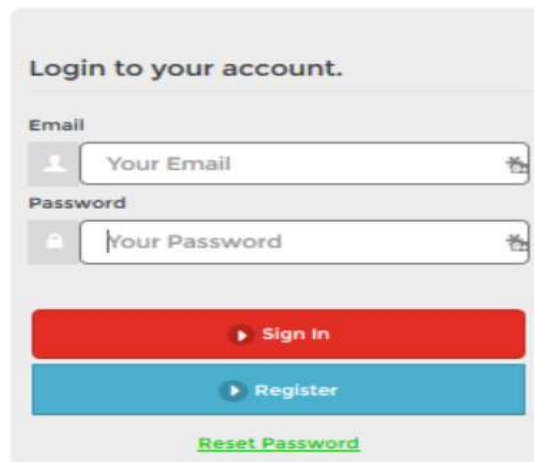

Following steps demonstrate the customer who had received bundle or individual components needs to do start using home automation solution.

### Prerequisites:

1. Customer receives a bundled set with all components and printed PIN code on Gateway.
2. In case the customer has purchased individual components, installation procedure is different from that of kit installation.
3. Customer should have valid email address that will be used as home automation system account.

### New account registration

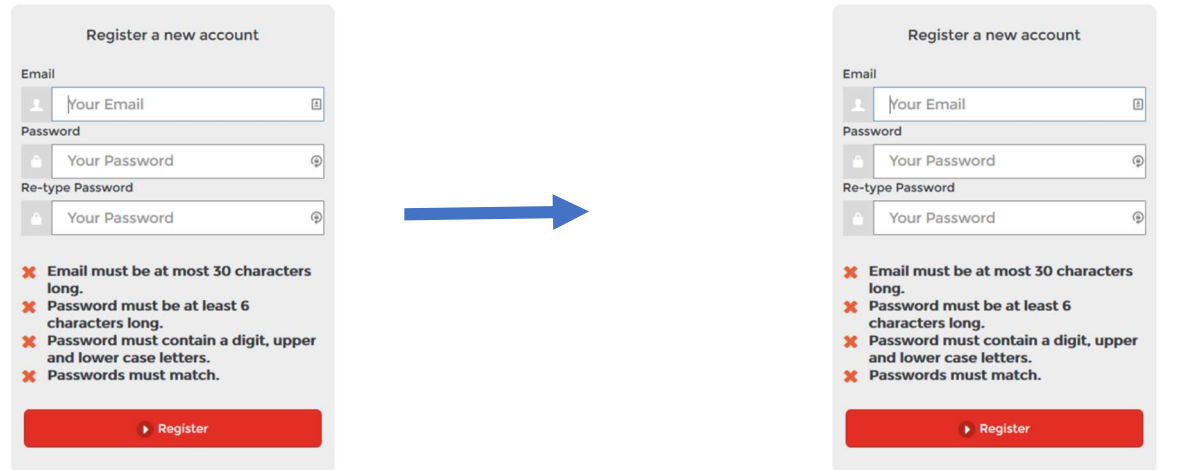

- Navigate to Salusfin control centre in your browser:  
<https://control.salusfin.com>
- Click on “Register” button

The screenshot shows a login and registration form. At the top, it says "Login to your account." Below this are two input fields: "Email" with a placeholder "Your Email" and "Password" with a placeholder "Your Password". Both fields have a small icon on the right side. Below the input fields are two buttons: a red "Sign In" button and a blue "Register" button. At the bottom, there is a green link that says "Reset Password".

## Registration page, example

Provide your credentials (Email address and password). The password needs to be entered twice.

The image shows two identical screenshots of the Salusfin registration page, connected by a blue arrow pointing from left to right. The registration form is titled "Register a new account" and contains the following fields and elements:
